

Pay100 Plus

What is NEW In PAY100+?

Pay100 Plus has a whole host of new features, including automated backup facility, Two different pay slip formats and many more user-definable payments, deductions and benefits.

Pay100 Is FAST:

Your Windows based computer maintains and computes all the data, the time you waste on writing down and calculating your payroll is saved. Even on an old 486, it takes less than a minute to process payroll for a company*

Pay100 Is ACCURATE

Pay100 ensures that your payroll is processed with absolute precision. Simple transcription (incorrectly copying) or inversion (accidentally changing the order eg. 254,000 instead of 245,000) errors can cost you a lot of money and wasted time. Pay100 prevents replication of such errors in future months, because once data has been input (for example base salary), that value is used each month until you change it. The result? 100% accuracy EVERY TIME. Strong reporting functions mean you'll save time on examining your payroll costs

Pay100 Is EASY ON YOUR POCKET

Our Competitive Pricing means that Pay100 is an ideal solution for all businesses whether you're a small, medium or large company; At Kshs 27,724 inclusive of VAT, and 1 Year of Support it is one of the most affordable payroll packages available in Kenya and offers all of the advantages of outsourcing without the cost!

Pay100 Is FREE TO EVALUATE

Call our sales team now for your FREE Demonstration - and save the time and hassle of month end payroll processing.

Payroll outsourcing

“

As a business manager, you need to take a hard look at your core competencies, revisit the areas of your company that aren't directly involved in those competencies, and ... let another company take over the management responsibilities for that work, and use modern communication technology to work closely with the people - now partners instead of employees - are doing the work...

”

-Bill Gates (Published in the April 1999 issue of Time Magazine)

Outsourcing has been the catch phrase for much of the 90's and is still an important aspect of business today. The benefits of outsourcing are numerous and include savings in time, money and more importantly, outsourcing relieves corporations of administrative duties allowing them to concentrate on their core business activities.

Our payroll bureau has been in operation for over 30 years and has done large scale payroll processing for companies like Bata shoe company, the East African Building Society, High Chem. East Africa and many more.

Our bureau will provide you with a complete turn-key solution for your payroll requirements. In addition to providing all of the regular statutory reports, we can:

- * Develop customized reports such as month-on-month reconciliation reports
- * Provide you with monthly SFI transfer files so that you can electronically pay your employees
- * Provide you with monthly change reports
- * Provide you with customized electronic reports to interface with your existing accounting software.

Our bureau clients have the benefit of:

- * Free pick up and delivery of payroll documentation (subject to some restrictions)
- * Optional electronic filing of monthly changes, including addition or termination of employees.
- * Free customer service during regular working hours
- * Access to our bureau manager at any time
- * Peace of mind, backed by 30 years of Payroll experience from Comp-rite Kenya Ltd
